Analysis of Out of School Survey Report
Terms of Reference [TOR]

The Sarva Shiksha Abhiyan conducted Out of school survey in 10057712 Household and 72243 number of schools in the month of November. The Chief objective of the survey is to identify out of school children in two phases through household survey and school survey and plan strategic plan of action to mainstream the Out of School Children.

Formats was developed by the department to capture the children data and database was developed to collect the data in soft copy. It is planned to generate cluster / block /district level reports and consolidate to a State report.

Research organisations, and universities engaged in educational research are invited to express their interest for generation of desired reports using the database.

Reports are required for 203 blocks and 34 districts which need to be consolidated and reflected in the State report.

The analysis will include status of each cluster, block and district on the basis of data on different parameters. Inter cluster, inter block and inter district disparities on major parameters, highlights of special features and summary assessment of the clusters, block, District and State report should be developed on the same lines, reports should address concerns of region wise, category wise, reason wise, age wise, disparities at cluster/ block / district / State level and recommend strategies action for mainstreaming OOSC children to the schooling system.

Based on the parameters in Annexure-01. It is emphasised that the agency is not expected to engage in any data collection work. Data have been already collected and entered in soft version. The task of analysis as per the requirement of SSA are being entrusted to the agency.
It is to be noted that the time line given by the department is to be followed strictly and any violation of timeline and consequently submission of final report is liable for penalty at the rate of 01% of project cost per week.

The size of the reports at various levels should be brief and comprehensive. Different parameters on which the data to be analysed along with chaptersation is enclosed. The agency is expected to submit one soft copy and hard copy of 34 districts and one soft copy and 10 hard copies of State report to State office after the approval of the report by SSA.
