

a) Selection of Girl students to KGBV:

Under the Educationally back ward blocks the girl students who are of the age group 10+ years as per Child Census survey January 2011 and those who are dropped out of the school system will be selected and admitted to KGBVs and the special group of teachers have been involved to monitor the children starting from remedial teaching till the required competencies prescribed for specific classes. Every school has a capacity of 100 girl children however this maximum capacity has been relaxed in order to accommodate more children and see that no girl child is deprived of elementary education.

b) Academics at KGBVs

- **Administering Pre-test and conducting bridge course:** Girls in the age group of 10 to 14 years once enrolled to KGBVs would be administered pre-test to diagnose the learning levels, and depending on the competencies the girls would get enrolled to 6th, 7th or 8th standard. But the girls who require individual attention and caring to reach up to the level of 6th standard are being given bridge course training in the class below 6th standard and special teaching is also given during the extra hours after enrolling them to 6th standard.

- **Syllabus followed and evaluation methods followed:** The State syllabus and evaluation methods are being followed in the KGBVs. Semester system has been adopted and the annual teaching plans are prepared and adhered to scrupulously. The deputed teachers of KGBVs are trained in adopting **Semester system** and are provided with '**Sourabha**' a module which provides the teachers for familiarization of the procedures for evaluation, adopting grading system which also includes project work, in Part B.

The progress cards supplied by the department are maintained in KGBVs. In addition, an individual profile card is maintained for every child to record the progress of the girls.

c) Convergence with the department

The free incentives of the State government have also been extended to KGBV schools. Every child gets free uniform and text books. SC/ST girls receive free note books and bags. The deputed teachers attend monthly sharing meetings and training imparted under SSA. KGBV girls attend all the programmes and competitions held by the department.

d) Academic support to KGBVs

- **Trainings:** KGBV teachers deputed from the department are given different training programmes under SSA at the block and District level. Trainings on Gender sensitization, Content enrichment on different subjects, preparation of teaching learning methods, evaluation methods, etc are provided. A new module has been developed by SSA for the capacity building of KGBV teachers. This module trains the teachers on how to deal with the children who enroll in KGBVs and the methods of teaching employed for teaching the children and other relevant issues are dealt in the module.

- KGBV teachers deputed from the department are given training under SSA at the block level.

- The Block Resource Persons and Cluster Resource Persons visit these schools regularly to accord academic support in the teaching and in solving the issues while dealing with the girls belonging to heterogeneous learning levels.

- A training manual for the capacity building of KGBV teachers is prepared and is circulated to all the KGBVs. DIET faculty, BRC and CRC faculty trained KGBV staff by using the training module.

- **Sharing of experiences:** KGBV teachers share their experiences at district level. The Head teachers of all the KGBVs meet quarterly at the State Project Office and share their experiences and good efforts they have made. These sharing meetings help the teachers to know the different good practices followed in different KGBVs, which in turn try to implement the same in their KGBVs.

- **Visits of Different Functionaries of the Department:** Different functionaries of the Department like officers of State Project Office-SSA, Officers from the DPO, BPO, the Block Resource Persons and Cluster Resource Persons regularly pay visit to KGBVs. During these visits, the functionaries understand the classroom practices followed and know the learning levels of children and provide academic support.

f) Monitoring system of KGBVs

- KGBVs are monitored at different levels starting from school, cluster, block, district, division and state level.
- KGBV is monitored by Head Teacher at School level. Academic activities are monitored by Head Teacher and hostel facilities are monitored by warden.
- At Block level Review of KGBVs is carried by Block Education Officer.
- BEO's of the EBB blocks along with KGBV head teachers are called for review meeting at the State level on in every quarter and all the activities are monitored.
- Also clear instructions to monitor and to provide complete academic support to KGBV's have been issued to Block Resource and Cluster Resource centers.
- Nodal officers from the State Project Office also pay visit to KGBV's and facilitate and ensure quality education.
- Quarterly meetings of BEOs, BRCs, Head Teachers of KGBVs, district Gender coordinators have been conducted.
- Regular monthly meetings of Deputy Project Coordinators of SSA is conducted at SPO and KGBV and NPEGEL programs are reviewed along with other programs.

g) Constitution of School Development of Monitoring Committee in KGBVs: School Development and Monitoring Committee (SDMC) has been constituted in each KGBV as per the provisions made in the concerned Government order related to the creation of SDMC. This has helped the KGBVs to take early decisions for developmental works. The SDMCs are given powers to construct school buildings. Unlike SDMCs of regular schools which are normally located within

habitation of 1 and 3 kms of homes of parents of school going children, the catchment of students of KGBVs extend to the whole taluk for which reason SDMCs of KGBVs may have a catchment of parents across several villages in taluk.
